### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Hines on 24 November 2004.

The application has been amended as follows:

**In the claims:**

Claims 17-20 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: the limitation reciting a method of sawing for continuously moving the stock during both cutting and non-cutting positions and strokes including steps of determining a reciprocation position of blades and moving a linear offset assembly in timed relationship with the reciprocation of the blades for coordinating the reciprocation and the linear offset motion of the blades as claimed in combination with other limitations set forth in claim 12 are not anticipated or made obvious by the prior art. Kivimaa teaches blades reciprocating in synchronism with a curved motion of the blades by guiding devices during continuous feeding of the workpiece in a sawing machine. However, Kivimaa does not teach a method of sawing for continuously moving the stock during both cutting and non-cutting positions and strokes including steps of determining a reciprocation position of the blades and moving the linear offset assembly in timed relationship with the reciprocation

of the blades for coordinating the reciprocation and the linear offset motion of the blades as claimed in combination with other limitations set forth in claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
